## **DETAILED ACTION**

### ***Drawings***

1. The drawings filed December 9, 2003 appear to be formal and are acceptable.
2. The drawings filed on December 9, 2003 are acceptable subject to correction of the informalities indicated herein. The boxes in the Figures should be labeled. The boxes in Figures 1, 2, 3, and 4a should be labeled.
3. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Priority***

4. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

5. The information disclosure statement filed May 4, 2004 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

***Allowable Subject Matter***

6. Claims 1-20 are allowed.

7. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed programmable source of pulse trains on an intermediate frequency including, inter alia, a formatting device transcribing the emitting instructions into a first control signal and a digital frequency synthesizer device receiving the first control signal and generating a modulated signal on an intermediate frequency. The present invention, as claimed as a whole, cannot be fairly rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various radar systems.
